

# Primary Care Physicians

Your primary care physician is your personal doctor who cares for most of your medical needs. When you need to see a specialist, your primary care physician will process a referral for you. Physician profiles are available at [www.beavermedicalgroup.com](http://www.beavermedicalgroup.com).

When you choose a new primary care physician you need to notify your insurance company. Please also call a Beaver Medical Group Patient Service Advisor at (800) 831-0001 to have your chart transferred. The Patient Service Advisor can also provide information about the doctors.
